## CERRITO BOARD REFUSES TO CALL SPECIAL VOTE

Contest Over Office Of City  
Treasurer May Be Taken  
Into Court

MRS. SIMONDSON IN OFFICE

Tie Vote In Former Balloting Re-  
sults In Demand For  
Second Election

Refusal to call a special election to settle for the office of city clerk at El Cerrito was made almost unanimously last night at a meeting of the board of trustees. At a recent election in which Mrs. Cora M. Simondson and Miss Curtin were contestants the vote was a tie, according to an opinion handed down by the superior court but owing to the fact that Mrs. Simondson had one more vote before a recount was demanded, she was seated in the office. At the recent the votes were found to be even but owing to the fact that Mrs. Simondson had already been seated in office the matter was dropped by the trustees.

The motion last night for a special election was voted down. Last night's meeting was attended by a large number of El Cerrito citizens. It was decided at the trustees meeting to request the Santa Fe Railway company to erect a warning sign on Stockton street at a point where the railroad track crossed the street.

The first reading on an amendment to increase the tax on gill boards were held before the board. The proposed tax will double the assessment on the bill boards in the city.

## Has Batting Average Of More Than .500

Rudolph Merani playing with the Barrel house bunch of the Standard Oil Company in the Twilight League is leading the field this year with a batting average of considerable better than .500 since the last time figures were computed. Some time ago Merani and Vianni were tied at .500 but since that time Merani has drawn away from his fellow barrel house swatters.

He has played in 32 games, batted every time in 32 trips to the plate. He has registered sixteen hits, three home runs, one three-bagger and four two baggers and eight singles.

Fans declare Merani to be one of the best prospects ever produced in the twilight league.

## ROTARY CLUB HOLDS LADIES' NIGHT PROGRAM

Aubrey Wilson Tells Of Interna-  
tional Convention Held  
In Canada

Wilson's address features the evening's entertainment. He described at length the different incidents of his trip, and how he was welcomed by the different clubs between here and Toronto. He said that the attendance was huge, about 10,000 delegates were present in Toronto, and he dwelt on different aspects of the convention.

Joe Brooks, past president of the club, was chairman of the evening, which was made enjoyable by a clever musical program. In which professional talent from San Francisco entertained the 120 members and guests who attended the gathering. Harry Marcus, chairman of the entertainment committee furnished every one present with a rollicking entertainment.

## Japs Can Buy Fruit Only After Picking

SACRAMENTO, July 11. — California fruit, growing on the trees, is "real property," and can not be sold to a Japanese or Chinese under provisions of the Alien land law, but once the fruit has been picked, it becomes "personal property," and accordingly a foreigner ineligible to citizenship can buy it.

That is the unusual opinion handed down by Attorney General C. S. Webb today when called upon by District Attorney W. G. Hoyle, of Sonoma county, to determine whether a California land owner can sell fruit on the trees to an alien who agrees to harvest it at his own expense.

## Divorce Sought By Mrs G. M. Stambach

Reciting in a complaint for divorce filed in the Superior Court that she was of delicate sensibilities while her husband was cold, harsh and indifferent, Mrs. Gleesner M. Stambach seeks to obtain a divorce from Frank C. Stambach of Richmond. Mrs. Stambach further claimed that her husband had remained away from home all night and refused to tell her where he had been and that he had told her in the presents of her parents that he cared nothing for her. She claims also that he had gone for days without speaking to her and refused to take her to places of amusement.

Stambach is an employee of the Santa Fe Company at Richmond and is earning, according to his wife, \$200 per month. She asked for no alimony. The case was heard by Superior Judge H. V. Alvarado Friday morning and an interlocutory decree of divorce was granted.

## Three Are Held As Suspects In Forest Blazes

Forest fires, sweeping through seven California counties had reached a stage last night where they represented the greatest timber catastrophe in the history of the State, it was announced yesterday by the United States Forest Service.

While more than 1000 fire fighters fought desperately in the face of flames that spread on fronts from two to twenty-eight miles, officials of the forest service, the State Board of Forestry and the California Development Association were uniting forces for an investigation into reports that the blazes were the result of arson plots. Rewards were posted for capture of the firebugs.

Three men were laid in jail at Newhall, suspected of having started the worst fire that has ever raged in Santa Barbara county, now out of control and threatening to destroy resorts and ranches over an area of thousands of acres.

The prisoners are former employees of the Radium Hot Springs resort an dare alleged to have plotted arson in revenge for being discharged. Search is being made for others said to be implicated in the plot.

The United States Forest Service announced in a bulletin last night that there are rewards of from \$100 to \$500 for the arrest and conviction of a person who maliciously sets a forest fire, and urged all citizens to aid in the work or running down all fire bugs.

Charging neglect at the time of the birth of their only child, twenty eight days old at the time of filing complaint, Thelma Edith Wood of Richmond has filed suit for divorce against Jackson Lester Wood, Jr., Mrs. Wood also charges that her husband was in the habit of staying out late at night and refused to tell where or with whom he had been, and that he was quarrelsome and nagging. ## SIXTEEN UNIONS GIVE STRENGTH TO LA FOLLETTE

Decision Made At Meeting With  
Senator After Five  
Hour Debate

UNIONS PLEDGE HIM SUPPORT

Official Verdict Probably To Be  
Announced July 17;  
Views Vary

WASHINGTON, July 11.—The entire strength of all the sixteen railroad labor unions, including their experienced organizers and money raisers will be thrown behind the candidacy of Senator La Follette, it was decided today.

Chiefs and representatives of the unions met the Senator at his office in the capitol for five-hour conference. There was a general exchange of congratulations and a tentative mapping out of the plan for establishing progressive headquarters in every state.

William H. Johnston, president of the machinists and permanent chairman of the progressive organization, today issued a call for the national committee of the new party to meet in Washington tomorrow to consider the selection of a running mate for "Fighting Bob."

Though no word could be obtained as to whom the Senator is considering for the Post, this call is taken to mean that the smaller executive committee had decided to place the names of several available persons before the full committee tomorrow.

The official decision is not to be announced before July 17 and it is likely that no word will be obtainable before that time, because of a rather wide divergence of views on the exact characteristics wanted in a man for second place.

## Picturesque Atmosphere In California Film

Atmosphere of the most picturesque nature is abundant in "The Shooting of Dan McGrew," the Sawyer-Lubin production for Metro, which will be screened for the last time tonight at the California theatre.

The great background of the Yukon of course, plays a big part, but the opening scenes of the picture offer still more novelty in scene. This section of the film is laid in the South Sea Isles, and shows the cabin of an old tramp steamer which has been turned into a cabaret by the stranded theatrical troupe of which Lou, as played by Barbara La Marr, is one of the leading members. The interior of the vessel presents a wild, exotic scene, with swinging lamps, half-naked natives, gamblers, dancing girls, and adventurers of all types.

"The Shooting of Dan McGrew" was directed by Clarence Badger and personally supervised by Arthur H. Sawyer. Winifred Dunn wrote the scenario.

Other features on the same program include, "Cradle Robbers," and "Our Gang" comedy. International News-reel.

## Canada Seeks Woman Colonists

OTTAWA, July 11.—Early Virginia colonists recruited their feminine population from wholesale shipments of women, and today, after the passage of 300 years and more Canada resorts to somewhat similar means for the same end.

Cargoes of women are arriving today at the ports of Canada, not in entire shiploads, it is true, but in large groups, assembled and conducted by government agents under assisted passage regulations for supplying Canada's deficit of women.

The Dominion is almost as urgently in need of the ministrations of women today as was the first American colony. With 6.5 per cent more men than women Canada is one of the very few countries of the globe where men have it all their own way numerically.

In some of the new provinces women are as scarce as trees on the prairies. Even in the East where to the general observer women seem to abound, there is the call for more women to share the household tasks.

The Canadian housewife is sadly beset with the servant problem. Mothers' helpers, who expect to be accepted as members of the family, are practically the only sort of assistance available. Since the war the demand for servants has increased as, with the new era an dits parliamentary enfranchisement, Canadian women have plunged into public life.

As they turned to outside interests they began to look around for capable women, trained in household management, to relieve them of their burdens at home.

While the demand is raised for women in the Dominion, lament comes from the mother country, struggling with her burden of two million excess women—women for whom cannot be found enough jobs, enough husbands, enough homes. Canada, see-

## Annual Report Of Health Department Is Made Public

Dr. C. H. Blake, city health officer, today issued the annual report of the city health department. Births far exceeded deaths as the report indicates. 326 births opposed to 150 deaths during the same period of time. Births increased over the previous year by 29; deaths increased 18.

Of the births 163 were boys and 162 girls. Only 116 of the deaths during the past year were resident deaths. Eight deaths were caused by accidents, 10 by apoplexy, 8 from cancer, 23 from heart disease, 15 from pneumonia and 4 from diphtheria. Of the total numbers of deaths 65 were persons over 40 years old, 22 were under one year old, and 27 were over 70 years old. Praise for Richmond's milk supply was found indirectly in the fact that only three deaths of children under one year of age were caused by intestinal troubles, Dr. Blake announced.

Coroner's cases amounted to 27 during the past year. Of 215 cases of communicable disease reported, 82 were cases of diphtheria, 58 measles, 18 pneumonia and 16 scarlet fever.

### National Parks Increase In Fame

WASHINGTON, July 11.—The national parks throughout the country are being visited by unprecedented numbers of sightseers, some of whom travel from coast to coast by automobile to get a glimpse of the natural scenic wonders of the great open spaces of the west.

Reports to the National Park Service of the Interior Department say there were 4611 visitors to Yellowstone for the month ended June 15, a 125 per cent increase for the same period last year, when a record of 138,252 for the season was established.

A big increase in the automobile travel to Yosemite in California is shown, 8550 of the 11,745 persons visiting the park during May traveling in 2669 cars, an increase of 50 per cent over May of last year, and a total increase of 20 per cent, considering all means of travel. To June 7 the total had reached 23,109 more than half of whom went in 4200 automobiles. The 1923 season mark was 130,046 for Yosemite.

The reports state Crater Lake, Oregon, has experienced a banner pre-season period, due principally to the attractions afforded campers of the west. On June 16 a total of 1443 automobiles carrying 4226 visitors from 32 states, including Maine, Vermont, New York, Washington D. C., and Texas had toured the park. At this time last year, due to a later opening, not a single visitor had entered the park. The 1923 season mark was 52,017.

The spectacle of a native Marquesan from the South Sea Isles rhapsodizing while floundering about in the snow, the first he had ever seen, is mentioned in the Crater Lake reports.

### Win Fight Against Diphtheria Here

Great progress in the fight against diphtheria which has been unusually prevalent during the past year is reported by Dr. Blake. Eighty-two cases of the dangerous disease have been quarantined during the year and with the help of the local school board 1285 children have been immunized requiring 3687 treatments. At present there are no cases of quarantined diphtheria in Richmond and the few cases reported recently have been entirely among those children who refused immunization. The laboratory has been very helpful in this work.

### Kidneys Need Lots of Water at Times

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders. Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well known local druggist says

he sells lots of Jad Salts who believe in trying to keep their kidneys clean. By all means have your kidneys examined your kidneys at least once a year.

### Rheumatic Paralytic for Now a Well Woman

Oakland, Cal., Sept. 23, 1923

For years I suffered so from rheumatic paralysis that I was unable to leave my bed. My hands and face were swollen and I had agonizing pains all over. My bladder and kidneys were in a terrible condition and I had pleurisy pain. A friend having urged me to try FONG WAN HERB, my husband asked their herbalist to call on me. We bought and cooked some of the herbs at home, and my bladder and kidneys were relieved almost immediately. I took the herbs for about four months, and now I can express my gratitude for my complete recovery. I am also happy to say that although I have taken no herbs at all during the past six months, I still remain well. I gladly give this testimonial to the FONG WAN HERB CO. I know FONG WAN to be a straightforward business man who makes no vain boasts. I also know that he has relieved terrible cases of suffering. I have recommended numbers of persons to buy his herbs, and they have all been satisfied. I live right here in the heart of Oakland. Anyone who really wishes to take the FONG WAN HERB, would like to know more about how wonderfully the herbs have helped me, can obtain my address at the FONG WAN office.

## Boiler Shop Loses To Asphalt Nine, Score Is 3 to 1

The game opened with the hitherto Standard Oil Company which during this season had been undefeated went down before the triumphant Asphalts, also the Standard Oil Company, with a 3 to 1 score in favor of the Asphalts, in last night's Twilight League game at the first street ball park.

The game opened with the hitherto invincible Boilermakers at the bat. O'Rourke, shortstop, was given a walk, but the next two men, Bradley and Anderson, went out at first and O'Rourke was caught when he attempted to steal home. For the Asphalt team Hutton went out at first, and Maverini got a hit. Farrer got a hit on an error. The next man up, Bonham, made a pretty two base hit, scoring Maverini, but the next two men, Foley and Brown, both went out at first. Score 1 to 0.

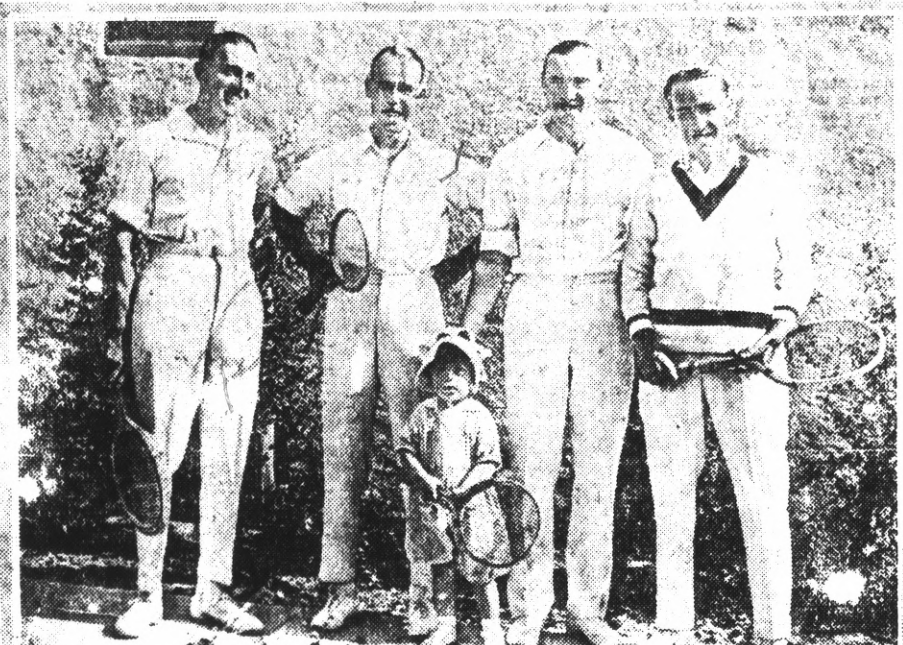

The second inning was brief for both sides. For the Boilermakers Dover and Rodden were both caught at first, and the third man, Whyatt went first after being hit by a pitched ball. Eyble, up next, was out at first and then Asphalt team came to the plate. Hutton was given a walk, but the next three men, Maverini, Foley and Eyble all quit at first. Score 1 to 0. Third inning. O'Rourke watched them and was walked to first. Bradley fanned. Anderson got a nice single and the next man, Dover, got a hit and an error. Rodden was caught at first and Pinkerton went out on a pop fly to centerfield, after O'Rourke had made home. The Asphalts started nicely with a hit by Colmyer and Cayo, coming to bat second, was given a pass to first. Hutton fanned but Bonham started an uproar when he knocked a two base hit scoring Colmyer and Cayo. Foley fanned and Brown got a hit but the next man, Eyble went out easily at first. Score 3 to 1.

The fourth inning was a no-hit no-run for both sides and was quickly over. The Boilermakers came to bat in the fifth rather determined to do something about what promised to be the first defeat of an invincible season. Pinkerton, first at bat, was out at first and the next man O'Rourke went first after being hit by a pitched ball. Bradley got a pretty single, but of the next two men Anderson the first, fanned and Dover was caught at first. For the Asphalt team Maverini knocked a high fly to right field, and Farrer was out at first. The next two men, Bonham and Foley were walked, but the third out came when Brown sent a fly to the centerfielder. Score 3 to 1.

The sixth inning was short, a one two three matter for both sides. For the Boilermakers Roden fanned; and Whyatt and Eyble both quit at first. The Asphalts took their turn and Eyble, Colmyer and Cayo all resigned before reaching first.

The Boilermakers came to bat for the last time. Redfield and Pinkerton both were out at first. O'Rourke next at bat was walked to first and

## Henriette Wagle 'Sues for Divorce

Claiming that her husband misused her, even after she had previously received an interlocutory decree of divorce, having the decree dismissed and returning to live with him again upon receiving his promise that he would act differently, Henriette Wagle has brought the second action for divorce against Adam S. Wagle of Richmond. Mrs. Wagle claims that after the dismissal of the previous case her husband told her that she was a fool and that he had outwitted her; that a written agreement previously entered into by them, under the terms of which he was to pay her \$60 a month, being nullified by the action. She says that his only reason for agreeing to do differently was for the purpose of abrogating the agreement and that he left her and went to Los Angeles a few days afterward. Later he returned and asked her to join him in Los Angeles which she did, but according to her complaint he began quarreling and nagging almost as soon as she arrived there. Mrs. Wagle claims that for the past three years her husband has been on intimate terms with another woman. She asks for \$250 attorney fees, \$150 costs of suit and \$100 per month alimony.

## East Bay Utility District Directors Refused By S. F.

After waiting for six months for a reply to their inquiry as to the terms and conditions by which the Eastbay might participate with San Francisco in the Hetch Hetchy project, the directors of the East Bay Municipal Utility district have received what they consider a virtual refusal of the information solicited.

Having been notified to this effect in a communication from Mayor Rolph of San Francisco, the directors at their meeting last night hastened a reply in which they assured San Francisco that "under no conditions will this district waive its right of obligation to the electorate to make such inquiries as appear advisable into the sufficiency and title of any water supply which it undertakes to investigate."

With the formation of the district, the directors sought to investigate the availability of the Hetch Hetchy

source along with the others of Northern California, and to this end inquired of San Francisco of the terms by which such an arrangement might be concluded. A reply of San Francisco to this inquiry was not made public until a letter from Mayor Rolph was read here last night, and the reply, in effect, was that as the Eastbay doubts the validity of San Francisco's title it need not trouble itself with further investigations.

"I have conferred informally with several members of the special advisory committee, and find that they as well as myself have been impressed by the attitude of doubt which you and your associates seem to feel as to the validity of San Francisco's water rights of the Tolumne river," wrote Mayor Rolph. "It seems to me, therefore, that very little advantage is to be derived from the discussion with your board of directors of the question of price if you are not thoroughly satisfied as to the title that San Francisco has."

The communications assert further that the plans for Hetch Hetchy were designed irrespective of the cooperation of the East Bay, and that while the financial aid of the Eastbay would
